### 3.2 Teaching Programme

The teaching programme is delivered according to guidance in the Assessment Principles for Regulated First Aid Qualifications:

- a) Regulated first aid qualifications must not exceed an assessor : learner ratio of 1:12.

The content of the teaching programme is the responsibility of the Centre and is developed by the staff team of the Centre. ITC has guidance and advice documents to assist in the development of a teaching programme that can be supplied to Centres upon request.

The course programme is developed from the learning outcomes and assessment criteria for the qualification. A Centre scheme of work containing lesson plans for each session is to be available for scrutiny by ITC External Quality Assurance activity.

### 3.3 Internal Quality Assurance (IQA) of Training Delivery

The Internal Quality Assurance of this qualification is to be completed by a suitably qualified person as described in the Assessment Principles for Regulated First Aid Qualifications.

The entire learner journey should be quality assured including both training delivery and assessment.

The Centre must employ different methods of monitoring such as observation, sampling, learner interview and maintain evidence of all meetings, CPD events, standardisation activity in a Central File readily accessible at any time by an ITC representative. ITC has various assessment and moderation template documents available to assist all Centres. See appendices of this document.

Each tutor must benefit from a monitoring visit whilst they are delivering and assessing at least once a year although it is anticipated that new tutor/assessors will require more structured professional development and support.

There should be an agreed quality assurance plan that monitors the skills of tutors, with evidence of standardisation maintained for external moderation.

The quality assurance plan should describe the internal quality assurance procedures and the evidence to be maintained for external quality assurance.

All IQA documents and evidence must be archived on the ITC Web Office being available for desk based External Quality Assurance.
